

THE FREEDOM CUP

HOW TO KEEP SCORE

Live scoring on your phone - from finding your match to posting the final point.

Open the Live tab

Everything happens on the Live Scoreboard - the pulse icon in the bottom bar.

- Tap LIVE in the bottom navigation (the heartbeat icon).
- You'll land on the Live Scoreboard: team totals up top, then every match by day.
- Scroll to Day 1 or Day 2 and find your match number and tee time.
- One phone per match is plenty - decide who is scoring on the first tee.

TIP

If you're asked for a passcode, that's the member gate. Ask your captain - it's the same code for everyone.

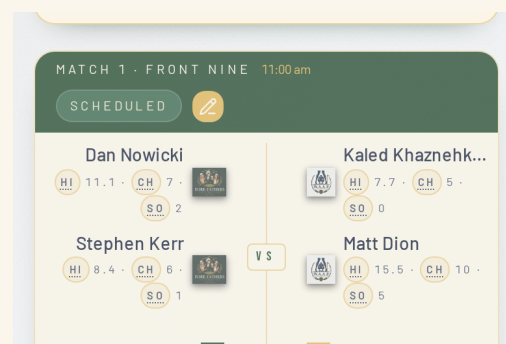

Tap the gold pencil

Every match row has a gold pencil button. That button is live scoring.

- Find your match - the row shows Match number, nine, and tee time.
- Tap the gold pencil to the right of the status pill.
- The scoring screen opens for that match only.
- HI = Handicap Index - CH = Course Handicap - SO = Shots Off (strokes you get in this match).

TIP

Tapping the row itself just expands details. The gold pencil is the one that opens scoring.

Know your header

The top card is your match at a glance - it updates the second a hole is posted.

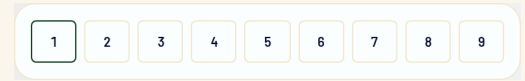

- Day, match number, nine, course and tee time run across the top.
- Big numbers are the live match points for each side.
- Underneath: which hole you're on, how many are played, how many remain, and the points cap.
- "Last updated" confirms your entry reached the server - everyone watching sees it too.

The nine-hole strip

Nine boxes, one per hole. This is your map for the round.

- Each box fills with the winning team's colour once a hole is scored.
- Grey means the hole was halved. Empty means not played yet.
- The gold-outlined box is the hole you're on right now.
- Tap any box to jump back to that hole and fix a score.

Enter gross strokes - always

Strokes are required. Type in what everybody actually made, and the app does the rest.

- The big number top-left is the hole. Par and stroke index (HCP) sit to the right.
- Each player has a row of buttons 1 through 8+. Tap the gross score they made.
- Gold dots next to a name mean that player gets a stroke on this hole - the app applies it for you.
- Do this for all four players, every hole. No exceptions - no strokes, no record.
- Tap the same number again to clear it if you mis-tapped.

TIP

Enter strokes as you walk off the green. Waiting until the turn is how holes get missed.

STROKES – TAP TO ENTER, POINTS AUTO-CALCULATE

THE FORE FATHERS

DAN NOWICKI

1 2 3 4 5 6 7 8+

STEPHEN KERR

1 2 3 4 5 6 7 8+

WE ATE ALL THE PUSSY

KALED KHAZNEHKATBI

1 2 3 4 5 6 7 8+

MATT DION •

1 2 3 4 5 6 7 8+

THE FORE FATHERS +1

TIE ½ – ½

WE ATE ALL THE PUSSY +1

← PREV HOLE

NEXT HOLE →

Points post automatically

As soon as all four scores are in, the app applies handicap strokes and awards the hole.

- Net best-ball: lowest net score on the hole wins the point.
- Tie on net? The hole is halved - a half point each.
- The three big team buttons are a manual override for oddities only (picked up, conceded, disputed).
- Never use the override in place of entering strokes.

← PREV HOLE

NEXT HOLE →

Watch it land, then move on

The header, the strip and the public scoreboard all update instantly.

- Check the header - the score changed and "last updated" ticked over.
- Tap NEXT HOLE -> to advance. <- PREV HOLE walks you back.
- "Undo last hole" wipes the most recent hole if you posted it by mistake.
- "Edit previous hole" jumps straight back to the last hole you scored.

Finishing the match

Play all nine, then confirm before you leave the green.

- When the ninth hole posts, a MATCH COMPLETE card appears with the final line.
- Compare it to the paper scorecard in your cart before you sign off.
- Something wrong? Tap the hole box in the strip and re-enter the strokes.
- Still stuck? Grab the commissioner - admins have a detailed scorer that can fix anything.

TIP

Phone dies? Keep the paper card going and enter the holes when you charge up. Nothing is lost.

The five-second version

If you remember nothing else, remember this.

- LIVE tab -> your match -> gold pencil.
- Enter all four gross scores on every hole.
- Points calculate themselves - don't touch the override.
- Next hole -> repeat.
- $HI = index - CH = \text{course handicap} - SO = \text{shots off}$.
